OUR PROMISE

DRH Contadores offers experience and quality in all accounting services.

We are a comprehensive consulting firm made of professionals with wide experience in several business areas. We are in constant training and updating processes and we are always committed to giving the best service to our clients.

SERVICES

We provide professional consulting and advisory services, taking care of our clients' needs properly.

LEGAL

We analyze all aspects from our clients' tax position, making the necessary changes that establish a legal platform for the proper development of their activities.

TAX

One of our clients' main concerns is their correct tax payment. Taking into account the individuality of your business, we create tax strategies that facilitate compliance with obligations, always taking care of your financial stability.

CONSULTING

We are present in every stage of business, advising our clients to set a clear vision towards the objectives, providing certainty in their decision making.

FINANCIAL

A key aspect of businesses is finance management. Relying on research and the needs of every client, we identify the appropriate time for the implementation of new projects, investments and important changes within the company, thus, strengthening their financial stability.

HUMAN RESOURCES

We know business and its environment; we know the importance of human capital proper management. Thus, we evaluate periodically all the employees' integral condition, offering you safety and efficiency in terms of labor obligations.

FOREIGN DIRECT INVESTMENT

We provide specialized advisory throughout the economic cycle for each kind of investment project.

We support foreign investors to forge long-term trade relations in our country.

This allows employment creation, increase in development and foreign exchange revenue, stimulation of competition and transfer of new technologies.

Most common problems we can help you out with:

50% FINANCIAL

ANALYSIS HELPING YOU TO MAKE THE RIGHT DECISIONS FOR THE BEST USE OF ECONOMIC RESOURCES.

Costs and operating expense analysis allowing high return on investment.

Financial information systems to provide appropriate indicators to all organizations that, in turn, provide reliability, usefulness, relevance, understanding and comparative data.

Studies in situations of external leveraging.

30% TAX

In-depth study of the financial information, profits and results of operations that provide us with the necessary elements to grant a solid tax advisory.

Preventive measures, through the analysis of future economic events with which we can jointly plan the financial impact on compliance in this area.

Assist choosing the most appropriate legal act in strict accordance with the Law, for each company or business through analysis, diagnosis, decision making and its correct implementation.

20% MANAGEMENT

ANALYSIS AND REVIEW OF INTERNAL CONTROL SYSTEMS, NECESSARY TO PROTECT THE COMPANY'S RESOURCES AND ACHIEVE A CORRECT FINANCIAL AND ADMINISTRATIVE MANAGEMENT.

Review of the various activities that are carried out in any institution, to enhance the attitudes of human resources. Integration, administration and its correct application of various economic and technological factors, human capital, among others.
